

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended).

A show ~~Show~~ cabinet for displaying objects, having several side panels, a base and an upper part that forms the top, at least one side panel being made in the form of a glass door, the outer side of which closes flush in the area of the outside edge of a side panel at the right- or left-hand side when the cabinet is in the closed state and the interior of the cabinet is sealed off from its surroundings in an airtight and dust-tight manner, an appropriate flexible sealing strip (12) ~~strips~~ being affixed in the door's area of movement, wherein the door (3) is mounted, by means of a guiding means (13, 14) affixed in the top (1) or the base (2) or in both the top (1) and the base (2), in such a way that it the door can be moved sideways in a parallel manner in order to completely clear the door opening, whereby to open the door the relevant side panel (5, 6) can be pushed back by suitable means, or the door (3) can be moved forward by suitable means, to such an extent that the inner face (8) of the door (3) is able to pass the front edge (7) of the side panel (5, 6).

Claim 2 (currently amended).

The show ~~Show~~ cabinet as in claim 1, wherein ~~the~~ a side wall (5, 6) is mounted, in such a way that it can be moved, by means of a single extension (13) affixed in the top (1) or in the top (1) and the base (2).

Claim 3 (currently amended).

The show ~~Show~~ cabinet as in claim 1, wherein ~~the~~ a double extension 14 of the door (3) is permanently fixed, firstly to the door (3) and secondly by means of a parallel guiding device to the cabinet.

Claim 4 (currently amended).

The show ~~Show~~ cabinet as in claim 1, wherein the sealing strip 12 is affixed to the cabinet in the area of the side wall (5, 6) and, when the door (3) is closed, lies up against the inner face (8) of the latter.

Claim 5 (currently amended).

The show ~~Show~~ claim 1, wherein the sealing strip (12) is affixed to the side wall (5, 6) in the area of the door (3) and, when the door (3) is closed, lies up against the front edge (10) of the door.

Claim 6 (currently amended).

The show ~~Show~~ cabinet as in claim 1, wherein the door (3) can be moved to both sides.
